PROFESSIONAL SUMMARY

Computer Science and Engineering student at the German University in Cairo with project experience developing Java applications and full-stack web applications using Flask and SQL. Seeking software development opportunities to apply programming and problem-solving skills, with communication and teamwork experience gained through employment and academic projects.

EDUCATION

Bachelor of Computer Science and Engineering **Sept 2024 – Present**
The German University in Cairo (GUC) Cairo, Egypt

SOFTWARE PROJECTS

Automata Lab | JavaScript, HTML/CSS, SVG **Sept 2026 – Present**

- Developed an interactive finite automata workspace for defining machines, visualizing transitions, and exploring string acceptance through step-by-step simulation.
- Implemented deterministic finite automata (DFA) operations, including union, intersection, and complement, alongside batch string testing.
- Separated the automata model, application logic, and user interface into three layers to support additional machine types and operations.

DooR DasH Game | Java, OOP, JUnit 4, Git**,** GitHub **Feb 2026 – May 2026**

- Led the design and implementation of a Java board game across three development milestones, covering game logic and a graphical user interface.
- Modeled game entities and behavior using class hierarchies, interfaces, and polymorphism.
- Implemented exception handling to enforce game rules and handle invalid player actions.

CS50 Finance and Stocks | Python, Flask, SQLite3, Jinja, Bootstrap **Dec 2022 – Jan 2023**

- Built a stock-trading simulator with user registration, session-based authentication, stock quotes, and simulated purchases and sales.
- Used SQLite to store user accounts, cash balances, and transaction records, supporting portfolio views and transaction history.
- Extended the application with password changes, simulated cash deposits, and trading shortcuts.

WORK EXPERIENCE

Senior Call Center Agent **Feb 2025 – July 2026**
Wazowski Outsourcing Cairo, Egypt

- Ranked as a top performer, closing 50+ deals within three months and generating 150+ successful leads during employment.
- Supported new-agent onboarding through targeted training sessions and role-play exercises.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C, SQL (T-SQL), Prolog, Haskell
Web Technologies: HTML/CSS, Flask, Jinja, Bootstrap
Libraries & Frameworks: JavaFX, JUnit4, Pandas, NumPy
Databases: Microsoft SQL Server, SQLite
Tools: Git, GitHub, VS Code, Eclipse
Core Concepts: Object-Oriented Programming, Data Structures and Algorithms, Relational Databases, Functional & Logic Programming

ACHIEVEMENTS AND AWARDS

Academics

- **Ranked** 2nd in high school in Egypt (Thanaweya Amma) and received a full scholarship for my university studies from the German University in Cairo.

Extracurricular Activities

- **Managed** VIP guest logistics and event setups as a volunteer for the 2024 Local Conference of Youth (LCOY).
- **Contributed** to various school facility maintenance projects, including hands-on carpentry, painting, and organizational improvements.
- **Facilitated** the distribution of fast-breaking meals and beverages to commuters and pedestrians during Ramadan over multiple years.
